

November 20, 1999 in St. Patrick's Cathedral with a solemn procession along New York's avenues and a requiem service.

We must honor the memory of all those who perished and never let such a tragedy happen again.

#### BURLE PETTIT TO RETIRE AFTER ILLUSTRIOUS 40 YEAR CAREER

##### HON. LARRY COMBEST

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, November 16, 1999*

Mr. COMBEST. Mr. Speaker, I rise today to recognize a man who has made his mark in West Texas with a long and successful career at the Lubbock Avalanche-Journal. Having worked his way up from sports writer to editor-in-chief over a span of four decades, Mr. Burle Pettit has announced he will retire January 15. Burle's reputation for fairness, his passion for journalism and his love for the community, won high praise from A-J Publisher Mark Nusbaum who said, "When you think of what an editor should be, you think of Burle Pettit."

Fortunately for all of us in the Lubbock community, Burle will still be a presence around the Avalanche-Journal in several ways. He plans to serve on the editorial board, provide general consultation, and continue writing his well-loved columns. Burle's influence will also be felt in the generation of journalists who have worked under him, inspired by his strong work ethic and reliance on accuracy.

I am grateful for the years of service Burle has given to our community—not only through his hard work on the paper, but also to the organizations he has supported with his time, such as the South Plains Food Bank, the March of Dimes, the Salvation Army, and the Monterey Optimist Club.

On behalf of his many readers in West Texas, I wish Mr. Burle Pettit a relaxing and rewarding retirement.

#### INTRODUCTION OF INDIAN HEALTH CARE IMPROVEMENT ACT REAUTHORIZATION

##### HON. GEORGE MILLER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, November 16, 1999*

Mr. GEORGE MILLER of California. Mr. Speaker, today I am joined by 26 of our colleagues in introducing the Indian Health Care Improvement Act reauthorization legislation. The Indian Health Care Improvement Act which provides for the delivery of health services of American Indians and Alaska Natives throughout the nation will expire at the end of fiscal year 2000. Since its enactment in 1976, the act has resulted in a reduction in serious illnesses and healthier Native American births.

The unmet health needs among American Indians and Alaska Natives continues to be staggering with their health status for below that of the rest of the United States population. When compared to all races in the United States, Indian people suffer a death

rate that is: 627 percent higher from alcoholism; 533 percent higher from tuberculosis; 249 percent higher from diabetes; and 71 percent higher from pneumonia and influenza.

The bill I introduce today represents, for the first time, Indian country's proposal, "Speaking With One Voice." Throughout the past year the Indian Health Service held regional meetings across the United States gathering information and consulting with health care providers, Indian tribes, tribal organizations and urban Indian organizations on how best the unique needs faced by Indian health delivery systems could be addressed. Following these meetings a national steering committee made up of tribal leaders from each of the Indian Health Service (IHS) areas plus a representative of urban Indians was established. The national steering committee drafted legislation and held numerous meetings to receive additional tribal views and incorporate them into a consensus document.

The legislation is focused on the national needs and includes very few tribal specific authorizations. Several of the programs normally administered by the Indian Health Service headquarters would be decentralized under this legislation with more funds distributed to IHS area offices to address local priorities. The bill also includes important health care training and recruitment provisions to assist with the chronic shortage of qualified health care providers. Additionally, the bill is designed to work cooperatively with contracting and compacting provisions under the Indian Self Determination and Education Assistance Act.

I am introducing this important legislation at the request of the national steering committee on the Reauthorization of the Indian Health Care Improvement Act. All the important component of Indian health care delivery are addressed in this bill including access to, and care for, diabetes, prenatal care, ambulatory care, alcohol and substance abuse, mental health, coronary care, and child sexual abuse. Certainly, there will be changes made to the bill as it proceeds through the legislative process, but this bill provides a solid basis for us to work from.

I commend the hard work and dedication of all the members of the national steering committee and those within the Indian Health Service who helped produce this legislation. For far too long Native Americans have put up with inferior health care. I will push for swift consideration of this bill and ask all my colleagues to join me in passing legislation to ensure that our first Americans are afforded only the best health care this nation can offer. We have the responsibility to accept nothing less.

#### TRIBUTE TO CLIFFORD STONE, JR.

##### HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, November 16, 1999*

Mr. McINNIS. Mr. Speaker, today I would like to honor Clifford Stone, Jr. for his hard work serving seniors throughout Jefferson and Gilpin Counties in central Colorado. After working in the private sector as a lawyer for

over 40 years, Clifford retired. But instead of retiring, Clifford chose to help senior citizens navigate their way through the sometimes confusing world of law. By running the First Judicial District Bar Association Legal Assistance Program, Clifford has helped countless seniors with many legal problems.

Clifford and the Program have been a beacon of hope throughout Gilpin and Jefferson Counties. The Program has had to handle the changing needs of seniors from legal questions involving estate planning to grandparents' rights. The Program is a non-profit organization and is available to anyone who is 55 years of age or older.

It is with this, Mr. Speaker, that I say thank you to Clifford and all of the people that make the First Judicial District Bar Association Legal Assistance Program such a positive community resource. Due to Mr. Stone's dedicated service, Colorado is a better place.

#### INTRODUCTION OF H. CON. RES. 209 CONDEMNING THE USE OF CHILD SOLDIERS AND CALLING FOR U.S. SUPPORT FOR AN INTER- NATIONAL AGREEMENT AGAINST THE USE OF CHILD SOLDIERS

##### HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, November 16, 1999*

Mr. LANTOS. Mr. Speaker, I recently introduced House Concurrent Resolution 209, a bipartisan resolution which strongly condemns the outrageous use of child soldiers around the world and calls on our government to support an international effort to develop an optional protocol to the U.N. Convention on the Rights of the Child.

This resolution—which is currently cosponsored by over 40 of our distinguished colleagues—is based on the deeply disturbing testimony of numerous expert witnesses before the Congressional Human Rights Caucus. They reported the most horrific practices including the forcible conscription of children—some as young as 7 years old—for use as combatants in armed conflicts around the world. As we speak, children are being conscripted into armies of some countries and warring factions through kidnaping and coercion, while others join out of economic necessity, the intention to avenge the loss of a family member, or for their own personal safety.

Many times, these children are forced to kill in the most sadistic and gruesome fashion, their victims often other children or even their own family or friends. By forcing children to perpetrate the most horrific crimes against their own families ensures that these child soldiers cannot desert and can never return home.

Mr. Speaker, our resolution clearly exposes the full scope of the problem of child soldiers. As it notes, experts estimate that in 1999 approximately 300,000 individuals under the age of 18 are participating in armed conflict in more than 30 countries around the world, and hundreds of thousands more are at risk of being conscripted. The practice of conscripting children has resulted in the deaths of two million minors in the last decade alone. In addition to those children who have been killed, an
